¹ In the case of Universal Life, commissions on inforce business are paid only if new premiums are paid; these premiums must not be derived from the previously invested savings portion.

² In such cases, the minimum premium is considered null and void once the contract is paid-up.

³ The excess premium corresponds to the difference between the minimum premium (V100 and 10-, 15-, 20-, 25-year or to age 65 options, as applicable) specified in the contract and the maximum premium for waiver of premium calculation purposes under the contract.

⁴ Commission rates apply to the inforce business in the suspense account and commissions are paid on a monthly basis.

⁵ Commission rates apply to the accumulated savings inforce business and are paid on an annual basis.
